Dexter Axles

Dexter is the undisputed leading manufacturer of trailer axles for over 50 years. Their American made axles are known for safe, reliable, and smooth performance.

Ready-Rail by PJ Trailers

Ready-Rail is a patent pending rail system that allows the user to customize their trailer to their specific needs through bolt-on accessories. With Ready-Rail your trailer can transform over its life to match your ever changing needs. Ready Rail is available exclusively on PJ Trailers.

Perfect Deck Width for UTV's

The U2's 72" wide deck is perfect for loading UTV's (typically 58" - 64" wide). The U2 is also the narrowest utility with an outside of width of 90" from fender to fender. This is especially important if you plan on pulling your trailer through tight trails or store your trailer in a small garage. If you need more room for extra gear and side loading other vehicles, check out our 77" and 83" wide utilities.
